Education in the United States is provided by public, private and home schools.. State governments set overall educational standards, often mandate standardized tests for Kâ€“12 public school systems and supervise, usually through a board of regents, state colleges, and universities. Funding comes from the state, local, and federal government. Private schools are generally free to determine ...

It is a responsibility we are failing to meet. According to statistics from the U.S. Department of Education, the gap in eighth-grade reading and math test scores between low-income students and their wealthier peers hasnâ€™t shrunk at all over the past 20 years. (The gap between poor and wealthier fourth-grade students narrowed during those two decades, but only by a tiny amount.)

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.
