The Must-Read Books on Music Production and Audio Engineering Björnirgvinn Benediktsson 56 Comments If you're like me you probably get super busy during most of the year.

Must-Read Books on Music Production and Audio Engineering

Sound waves travel through air at approx. 340 m/s (v , depending on temperature and humidity. The oscillating speed of sound is called the frequency f , measured in cycles per second or Hertz [Hz]. The combined length of one high- and one low-pressure zone is called the wavelength λ . We find: $\lambda = v / f$ Hearing We detect sound with our ear-drums.
