Telecommunication is the transmission of signs, signals, messages, words, writings, images and sounds or information of any nature by wire, radio, optical or electromagnetic systems. Telecommunication occurs when the exchange of information between communication participants includes the use of technology. It is transmitted either electrically over physical media, such as cables, or via ...

Behzad Razavi's Fundamentals of Microelectronics is a highly useful book to understand the working of diodes, transistors both BJT and MOSFET and amplifiers. It explains very well about small signal and large signal analysis. This is quite a good for Microelectronics which also discusses the practical applications.
