Climate-smart agriculture (CSA) goes beyond new technologies and practices like drought resistant varieties or precision farming. To achieve the multiple objectives of productivity and food security, enhanced farmer resilience and reduced greenhouse gas emissions, CSA must adopt various systems perspectives. These include landscapes and ecosystems, as well as value chains.

## **Systems approaches | Climate-Smart Agriculture Guide**

This is the first tutorial in the "Livermore Computing Getting Started" workshop. It is intended to provide only a very quick overview of the extensive and broad topic of Parallel Computing, as a lead-in for the tutorials that follow it.

## **Introduction to Parallel Computing**

A communication diagram in the Unified Modeling Language (UML) 2.0, is a simplified version of the UML 1.x

collaboration diagram.. UML has four types of interaction diagrams: Sequence diagram; Communication diagram; Interaction overview diagram; Timing diagram; A Communication diagram models the interactions between objects or parts in terms of sequenced messages.

Oracle acquired Sun Microsystems in 2010, and since that time Oracle's hardware and software engineers have worked side-by-side to build fully integrated systems and optimized solutions designed to achieve performance levels that are unmatched in the industry. Early examples include the Oracle Exadata Database Machine X2-8, and the first Oracle Exalogic Elastic Cloud, both introduced in late 2010.
