undergraduate textbook in psychiatry. When one of the students attached to my clinical firm first suggested the concept of a series of specialist textbooks written by students, for students, my reaction was a mixture of curiosity and scepticism. Luckily, a combination of Amir Samâ€™s powers of persuasion and my curiosity overcame my scepticism.

Textbook Title: Introductory Textbook of Psychiatry Textbook Description: As a scientific discipline, psychiatry has enormous breadth. It comprises both the technical, as in the frontier-expanding research in molecular genetics and the human and personal, as in the insights and support therapeutically given when a clinician treats a patient.
