General downloads | STULZ BENELUX

STULZ Air Technology Systems provides advanced precision cooling solutions for mission critical applications. Power Solutions offers the full STULZ product range including traditional room cooling, high density rack cooling, container modules, and air handling units with adiabatic cooling.

STULZ - Mission Critical Cooling - Power Solutions

STULZ CyberAir 2 A/C units are produced both as a space-saving standard version and an energy-optimised, low-energy version. Three different refrigerants In addition to water as the cooling medium, the STULZ CyberAir 2 can run with three different refrigerants: standard refrigerants R407C and R410A, and high- temperature refrigerant R134a.

CyberAir 2 – Precision Cooling Solutions

The STULZ Micro DC is a cost-efficient solution that delivers scalable, demand-driven IT resources, upgrades existing critical infrastructure or easily installs additional computing and storage power at the edge of your network.

STULZ Micro DC - coolitsystems.com

STULZ Story of Innovative Economizer Cooling: STULZ provides industry leading DX and CW-based water-side economizer cooling solutions - detailed in this design guide. The state-of-the-art –STULZ Dynamic Economizer Cooling– solution represents an exciting new approach - with proven results.

STULZ Water-Side Economizer Solutions - Mission critical

IT Cooling Solutions CyberAir 3 – Data Center Cooling Solutions ... the energy efficiency of the precision climate control solutions. The CyberAir 3 shows how serious we are: The result is a ... In addition to water as the cooling medium, the STULZ CyberAir 3 can run with three different

IT Cooling Solutions CyberAir 3 – Data Center - STULZ

STULZ and CoolIT Systems have partnered to deliver innovative cooling solutions to the data centre industry. Direct Chip Liquid Cooling Solutions allow customers to capture dense heat loads at the source (inside the servers) and efficiently move it to the outside atmosphere.

HPC – Direct Liquid Cooling | STULZ AU
