Fiat money is a currency without intrinsic value that has been established as money, often by government regulation. Fiat money does not have use value, and has value only because a government maintains its value, or because parties engaging in exchange agree on its value. It was introduced as an alternative to commodity money and representative money. ...

Harold; yes, though this is easy. A set of eight trees is the same thing as a set of seven trees plus a tree. The set of seven trees corresponds (under the original Blass correspondence) to a single tree, so the set of eight trees corresponds to a single tree plus a tree, i.e. a pair of trees.

Seven Trees in One at Steven Landsburg | The Big Questions

Yes, it will. The sum of normal distributions is a normal distribution. There are of course reasons to expect an asymmetrical bell curve (the simple way to hack funnel plots is to game your choice of axis – here, for example, focusing on the elasticity of labour demand favours certain labour market models above others).
