Unemployment or joblessness is the situation of actively looking for employment but not being currently employed.. The unemployment rate is a measure of the prevalence of unemployment and it is calculated as a percentage by dividing the number of unemployed individuals by all individuals currently in the labor force. During periods of recession, an economy usually experiences a relatively high ...

Economics (/ ˈ ɛ k ɒ n ɒ m ɪ k s, i ˈ ɛ k ɒ n ɒ m ɪ -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.
