In computing, floating-point arithmetic (FP) is arithmetic using formulaic representation of real numbers as an
approximation so as to support a trade-off between range and precision. For this reason, floating-point
computation is often found in systems which include very small and very large real numbers, which require
fast processing times.

The culture of Mexico reflects the country's complex history and is the result of the gradual blending of native culture (particularly Mesoamerican) with Spanish culture and other immigrant cultures.. First inhabited more than 10,000 years ago, the cultures that developed in Mexico became one of the cradles of civilization. During the 300-year rule by the Spanish, Mexico became a crossroad for ...
