This is a really good, thorough livestock book. It covers more than a vet tech student will ever need to know about food animal production. Having said all that, it's way too expensive for a mostly black and white book printed on cheap paper that's one step above newsprint in quality.

### **Modern livestock and poultry production: James R Gillespie**

Livestock are domesticated animals raised in an agricultural setting to produce labor and commodities such as meat, eggs, milk, fur, leather, and wool. The term is sometimes used to refer solely to those that are bred for consumption, while other times it refers only to farmed ruminants, such as cattle and goats.
