Responses will include accurate and detailed factual explanations showing thorough knowledge of nutritional issues linked closely to the indicative content. Appropriate and accurate use of specialist terminology.

GCSE Food preparation and nutrition Specimen mark scheme

Nutrition is the science that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism. It includes food intake, absorption, assimilation, biosynthesis, catabolism, and excretion. The diet of an organism is what it eats, which is largely determined by the availability and palatability of foods.
