An interesting read and what stands out to me is the difference in opinion from the “experts”. Likely this results from different roles of the respondents, many are analysts, some traditional business consultants, others mimic their vendor messaging and a few actually implement solutions on a daily basis.

A fuzzy concept is a concept of which the boundaries of application can vary considerably according to context or conditions, instead of being fixed once and for all. This means the concept is vague in some way, lacking a fixed, precise meaning, without however being unclear or meaningless altogether. It has a definite meaning, which can be made more precise only through further elaboration ...
